

METAL MARKER
—MANUFACTURING COMPANY—

OTHERS PROMISE,
WE DELIVER

metalmarkermfg.com

ABOUT US

Founded in 1923, Metal Marker Manufacturing designs and fabricates a wide range of identification products and processes, including custom metal tags, name plates, embossing, stamping, and photo anodizing.

Our business has been built on the belief that the most important consideration is the long-term interests of our customers, our suppliers, our employees, and our community. Our philosophy is to provide exceptional value through high-quality standards and a deep commitment to excellent service.

Whether you need a few pieces or a few thousand, we look forward to helping you find the custom identification solution that best meets your needs. Our commitment to getting the job done means you will receive the exact product you ordered, delivered on time.

SERVICES

Metal Tags

Used for easy, durable identification of assets, inventory, and equipment.

Photo Anodizing

Customized tags for assets that can contain any information, including barcodes.

Nameplates

Custom nameplates are used in nearly every industry and application imaginable.

THE METAL MARKER ADVANTAGE

We work with you to develop a solution that fully meets your identification needs. These concepts form the foundation of our commitment to our customers:

Knowledge

Metal Marker has been in business since 1923 and we have learned a lot about custom identification products since then.

Quality

Our quality management system is ISO certified, which means that every time you work with Metal Marker, you can count on the highest quality products.

Delivery

We maintain raw materials on hand, so once we receive an order we minimize the time it takes to complete it and deliver it to you.

Value

When you order from us, you will receive a high-quality product that is designed to meet your needs.

WITH METAL MARKER,
YOU GET EXPERTISE,
QUALITY, AND TIMELINES
YOU CAN COUNT ON.

Great product and service. Great quote and product turnarounds. Metal Marker has literally pulled us out of the fire.
